## **The request for cooperation of the 9<sup>th</sup> Asian Cellular Therapy Organization Meeting (ACTO 2018)**

The 9<sup>th</sup> Asian Cellular Therapy Organization Meeting or ACTO 2018 will be held during October 26-28, 2018 at Le Meriden Chiang Mai Hotel, Chiang Mai, Thailand. Asian Cellular Therapy Organization (ACTO) was established in May 2011, from the former International Society of Cellular Therapy Asia (ISCT Asia), as an academic society for pioneering new cellular therapy based in the Asian region. ACTO aims to serve for the development of cellular pharmaceuticals standing on the international perspective and to support the progress of cellular therapy practices suited to current situation surrounding Asia.

This Asian annual meeting is aiming to develop and spread cellular therapy around the world and this year 9<sup>th</sup> meeting will be held in Chiang Mai, Thailand, over the last Tokyo meeting. The purpose of this meeting is to propel education and research of cell therapy together with standardizing cell therapy and clinical development by organizing international supporting system, cooperating with regulatory authorities and academia meetings related to hematopoietic stem cell transplantation, regenerative medicine, and gene & cell therapy. Many researchers, physicians and agents of regulatory authorities from Asian and other regions will gather and discuss significant session.

The 9<sup>th</sup> meeting subject is “The Next Frontiers in Cellular Therapy”. We are planning to discuss regulatory science on October 26, 2018 and decide our future direction of our activity based on reports from each country. In addition, there will be the special lectures by Dr. Philip Leboulch, Dr. Nissim Bivenistry, and Shuichi Taniguchi. In addition, there will be many interesting topics on regenerative medicine, stem cell research, cellular and gene therapy.

It is necessary for us to support many lecturers from aboard, and this could not be done without your kind support. Therefore, we hope your understanding of our purpose and significance for ACTO 2018, and would greatly appreciate your kind support and operation.

Yours sincerely,

**Wichai Prayoonwiwat, MD.**
